Offering over 70 CE Credits, Mosby’s Radiography now delivers the broadest range of CE approved courses for Radiologic Technologists working in hospitals and medical imaging centers.

In partnership with EduMed, an industry leader in providing accredited continuing education, Mosby’s Radiography now offers an enhanced and expanded e-learning solution for the practicing radiologic technologist.

Mosby’s Radiography takes a creative approach that encourages radiologic technologists to participate as active learners. Courses are designed to keep practitioners current on the latest advances in technology while earning CE credits required for biannual renewal of registration.

What makes our program different from other healthcare e-learning providers?

- Unlimited access to over 70 medical imaging CE credits
- 100% online training, testing, and reporting
- No scrolling PDF’s or blocks of text
- Media rich elements including over 500 images, animations, and illustrations
- Lessons address imaging modalities such as Diagnostic Imaging, MRI, PET, Ultrasound, and Nuclear Imaging

Interactive self-check activities include:

- Case studies
- Drag-and-Drop Labeling
- Fill-in-the-Blank
- Line Matching
- Multiple Choice
- Quiz Show Questions & Answers
- True/False

Mosby’s Radiography courses are approved for Category A credit through the American Healthcare Radiology Administrators (AHRA), the American Society of Radiologic Technologists (ASRT) or the Society of Diagnostic Medical Sonographers (SDMS) as defined by the American Registry of Radiologic Technologists (ARRT).
