THE HEALTHCARE E-LEARNING COMPANY

HELPING ORGANIZATIONS MEET REGULATORY REQUIREMENTS & PROMOTE SAFE, QUALITY PATIENT CARE

MC Strategies has been a demonstrated leader in regulatory compliance online learning for more than a decade.

Thousands of employees in leading healthcare organizations throughout the country have successfully completed **The Joint Commission/OSHA Compliance course**. With the introduction of this newly revised online course, Elsevier/MC Strategies has taken a fresh approach and enhanced a course that has been trusted by hundreds of healthcare organizations for years.

Updated Joint Commission/OSHA Compliance Online Course Helps Your Organization Streamline Learning. With completely revised materials and 13 new lessons, Elsevier/MC Strategies has created a superior online course for your employees, replete with the most accurate, up-to-date content. What's more, each lesson is presented through engaging, captivating, and interactive learning activities, such as crossword puzzles, flash cards, and line matching. **55 lessons are offered in English, and 23 of those are also available in Spanish.** Testing throughout the course enables employees to measure their understanding of the subject matter and gauge their ongoing progress. An added benefit for all employees is the integration of self-assessment activities interwoven throughout each lesson.

The Joint Commission/OSHA Compliance Online course helps your organization promote safety and high quality care standards. The goal of The Joint Commission/OSHA Compliance Online course is to help organizations continue to meet regulatory compliance standards and to promote safe, quality patient care. This course helps keep all of your employees updated with the latest regulatory requirements, standards and laws, and prepares staff at all levels to discuss key patient safety requirements with accreditation and regulatory surveyors. Customizable lessons can meet the unique needs of each organization and address the learning needs of a diverse, growing workforce.

The completely revised course covers topics to help organizations maintain compliance with regulatory requirements

THE CENTERS FOR DISEASE CONTROL AND PREVENTION
THE CENTERS FOR MEDICARE AND MEDICAID SERVICES
THE JOINT COMMISSION
THE OCCUPATIONAL SAFETY AND HEALTH ADMINISTRATION

The Joint Commission/OSHA Compliance Online Course is delivered by Elsevier/MC Strategies' dynamic learning management system specifically designed for healthcare. Our goal is to provide healthcare e-learning solutions that will impart knowledge, test understanding, and assess performance to meet regulatory, organizational, and professional practice solutions.
